Aligned SDGs

Rationale for SDG Linkage

The workshop provided experiential, skill-based learning, enhancing creative thinking, digital literacy, and visual communication skills

Photography and visual storytelling offer employable skills and entrepreneurship opportunities in media, journalism, advertising, and digital platforms

Objectives of the Activity

- To provide hands-on training in photography and visual storytelling.
- To enhance creative and technical skills in visual communication.
- To introduce participants to career and freelance opportunities in photography.
- To promote skill-based and experiential learning beyond the classroom.
- To encourage ethical and impactful visual narration.

Description of the Activity

The Photography Workshop was organized as a practical training program focusing on the art of visual storytelling. The session began with an expert lecture on fundamentals of

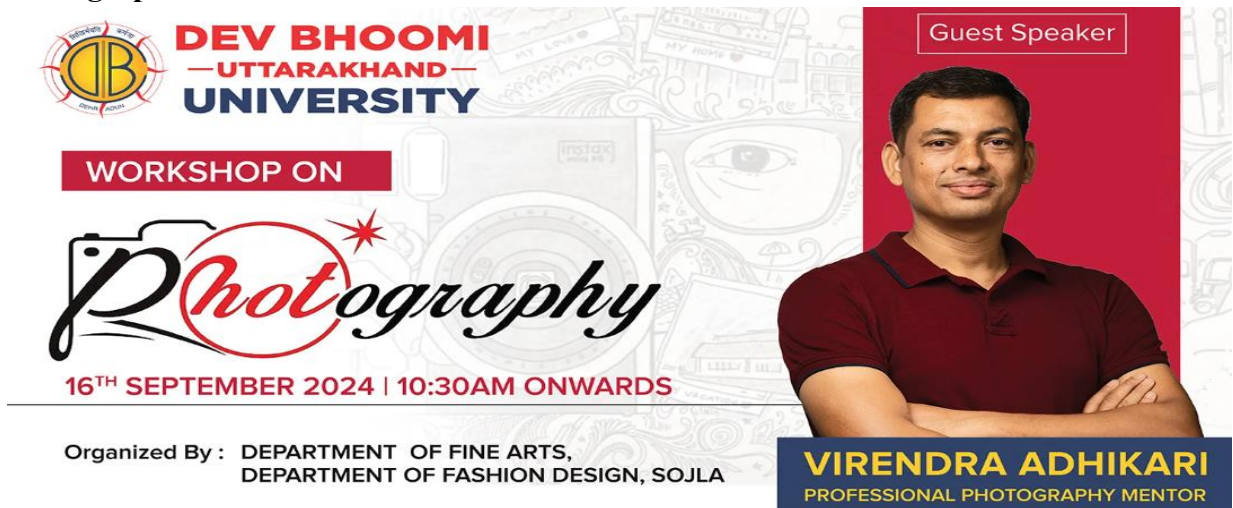

photography, including camera handling, composition, lighting, framing, and storytelling techniques. This was followed by live demonstrations and outdoor practical sessions.

Participants actively engaged in hands-on photography exercises, capturing images that conveyed meaningful narratives. The resource person provided real-time feedback on composition and storytelling aspects. The workshop also highlighted career prospects, freelancing avenues, and ethical responsibilities in visual media.

Outcomes of the Activity

- Improved technical knowledge and practical photography skills.
- Enhanced ability to communicate stories through visual media.
- Increased awareness of career opportunities in photography and digital media.
- Encouraged creativity, confidence, and entrepreneurial thinking.
- Strong alignment with SDG 4 and SDG 8 through skill development and employability.
